

**An Important Message from  
The Texas Health and Human Services Commission (HHSC)**

**Change in Preferred Drug List Status for Beta Agonist Drug Class,  
Effective January 3, 2025**

**Background:**

VDP is aware of the product discontinuation for brand name Xopenex inhalation solution in the Bronchodilators, Beta Agonist drug class, due to the shutdown of Akorn Pharmaceuticals.

**Key Details:**

In response to the discontinuation of inhalation solution products with the preferred brand name Xopenex, VDP removed the non-preferred status from the generic Levalbuterol inhalation solution products on the preferred drug list (PDL) effective January 3, 2025.

Prescribers can prescribe the generic Levalbuterol inhalation solution without requiring a PDL prior authorization, allowing clients to continue accessing necessary medication.

The enclosed file lists the generic Levalbuterol products with their National Drug Codes.

**Action:**

This change will appear in the daily formulary file as of January 3, 2025. MCOs must make the change by January 13, 2025.

**Resources:**
