Other factors affecting reimbursement may supplement, modify or, in some cases, supersede this policy. These factors include, but are not limited to: federal &/or state regulatory requirements, the physician or other provider contracts, the enrollee's benefit coverage documents, and/or other reimbursement, medical or drug policies.

Finally, this policy may not be implemented exactly the same way on the different electronic claims processing systems used by UnitedHealthcare Community Plan due to programming or other constraints; however, UnitedHealthcare Community Plan strives to minimize these variations.

Policy

Overview

This document articulates UnitedHealthcare Community Plan's policy regarding reimbursement to physicians or other health care professionals for codes which are assigned a status code "B" according to the Centers for Medicare and Medicaid Services (CMS) National Physician Fee Schedule (NPFs) Relative Value File.

Reimbursement Guidelines

All codes published on the NPFs Relative Value File are assigned a status code. The status code indicates whether the code is separately payable if the service is covered. Per the public use file that accompanies the NPFs Relative Value File, the following is stated for status code "B":

"Payment for covered services are always bundled into payment for other services not specified. If RVUs are shown, they are not used for Medicare payment. If these services are covered, payment for them is subsumed by the payment for the services to which they are incident. (An example is a telephone call from a hospital nurse regarding care of a patient)."

Consistent with CMS, UnitedHealthcare Community Plan will not separately reimburse for specific Current Procedural Terminology (CPT®) and Healthcare Common Procedure Coding System (HCPCS) codes assigned a status code “B” on the NPFS Relative Value File indicating a bundled procedure. B Bundle Codes are not reimbursable services regardless of whether they are billed alone or in conjunction with other services.
